

Nano-Tex.[®]

Permanent protection on a nano level.

The first high-performance nanotechnology that builds permanent spill and stain resistance into the molecular structure of the fabric. Nano-Tex protects your design, your installation, your client. Any fabric, any application, in any space.

FEATURES

Spill / Stain Prevention

BENEFITS

- Fabric aggressively repels liquids and soiling
- Liquids can be blotted off the fabric face preventing staining
- Helps prevent staining of fabric from dirt and spills, including coffee, soda, wine, mustard, salad dressing, blood, urine and iodine
- Easily cleaned with all detergents, solvents or 15% diluted bleach (fabric appropriate)

Performance

- Maintains natural hand
- Highly breathable
- Permanent
- Durable up to 30 commercial washings

Environmentally Friendly

- Nano-Tex is an environmentally friendly chemistry that is recyclable
- No formaldehyde
- No PFOA

Passes NFPA 701

- Most all inherently fire resistant fabrics, which pass NFPA 701 prior to any treatment, also pass NFPA 701 after the application of Nano-Tex
- Great for cubicals, drapery and bedding and many vertical applications

Applications

- For healthcare, hospitality, educational, corporate, entertainment and residential interiors
- Used for cubical, curtains/drapery, seating, panel fabrics, bedding and wallcoverings
- Can be combined with other fabric finishes such as antimicrobial, FR treatments and all backings
